

Application No.10/552,335

Attorney Docket: 2017-31

**Claim Amendment under 37 C.F.R. §1.121****1.- 2. (Canceled)**

3. (New) A coat hanger shopping bag for packing and keeping an upper garment and a lower garment having belt rings, the coat hanger shopping bag comprising:

a coat hanger comprising an upper end portion;

a handhold formed on the upper end portion of the coat hanger, the handhold being configured to be carried easily by a hand, and wherein the handhold comprises a coat hanger groove;

a beam extended outwardly from both ends of the upper end portion, the beam having a little shorter length than the whole length of the coat hanger, wherein the beam is configured for the lower garment to be hung through the belt rings; and

a coated packing paper comprising a plurality of dotted lines and a fan-shaped hole, wherein the fan-shaped hole is configured for the handhold to be inserted through,

wherein the coated packing paper is folded along the dotted lines and packs the coat hanger and the upper garment hung on the coat hanger and the lower garment hung on the beam with the handhold taken out of the coated packing paper, and wherein the beam is aligned with at least one of the dotted line when the coated packing paper is folded and wrapped.

4. (New) The coat hanger shopping bag of Claim 3, wherein the fan-shaped hole is formed by at least one dotted line and a plurality of edges of the coated packing paper.

5. (New) A coat hanger for hanging a garment having string holes, the coat hanger comprising:

an upper end portion; and

a beam extended outwardly from both ends of the upper end portion,

wherein the beam has a little shorter length than the whole length of the coat hanger, wherein the beam is configured for the lower garment to be hung through the belt rings.
